

## Cancellation Policy

Each appointment is time set aside and reserved specifically for a patient. Other patients who may have needed the appointment cannot easily fill cancellations on short notice.

We require that patients call the office 48 hours before their scheduled appointment (for Monday appointments, please call on Thursday). This will ensure that the appointment will be available for other patients or emergencies. There is a \$45 fee for appointments that are missed or cancelled without proper notice.

I have read and agree to the above cancellation policy.
